1.3 Approval of Condensed Consolidated Interim Financial Statements

The condensed consolidated interim financial statements of the Group as of and for the three months ended March 31, 2024 (including the comparatives as of December 31, 2023 and for the three months ended March 31, 2023) were approved and authorized for issue by the Parent Company's Chief Executive Officer (CEO) on May 13, 2024.

2. BASIS OF PREPARATION OF CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(a) *Statement of Compliance with Philippine Financial Reporting Standard*

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS), as modified by the application of the financial reporting reliefs issued and approved by the Securities and Exchange Commission (SEC) in response to the COVID-19 pandemic. The financial reporting reliefs availed of by the Group are disclosed in detail in the succeeding pages. PFRS are adopted by the Financial and Sustainability Reporting Standards Council (FSRSC) from pronouncements issued by the International Accounting Standards Board, and approved by the Philippine Board of Accountancy.

The consolidated financial statements have been prepared using the measurement bases specified by PFRS, as modified by the application of the financial reporting reliefs issued and approved by the SEC in response to the COVID-19 pandemic, for each type of asset, liability, income and expense. The measurement bases are more fully described in the accounting policies that follow.

(b) *Adoption of PIC Q and A No. 2018-12, PFRS 15 Implementation Issues Affecting the Real Estate Industry (as amended by PIC Q and A 2020-02 and 2020-04*

The provision of the PIC includes assessing the financing component in the Contract to Sell and changing the treatment of cost land in the computation of percentage of completion (POC).

The Group followed the allowed modified retrospective approach resulting to the adjustment of the beginning balance of retained earnings in 2024. The adjustment on the beginning balance of retained earnings amounted to P154.1 million.

As of the March 31, 2024, the Group has assessed that the impact of the adoption of PIC Q&A that relates to the significant financing component of contracts to sell and the exclusion of the cost of land on the computation of POC is not material.

(c) *Presentation of Consolidated Financial Statements*

The consolidated financial statements are presented in accordance with Philippine Accounting Standard (PAS) 1, *Presentation of Financial Statements*. The Group presents a consolidated statement of comprehensive income separate from the consolidated statement of income.

The Group presents a third consolidated statement of financial position as at the beginning of the preceding period when it applies an accounting policy retrospectively or makes retrospective restatement or reclassification of items that has a material effect on the information in the consolidated statement of financial position at the beginning of the preceding period. The related notes to the third consolidated statement of financial position are not required to be disclosed.

(d) *Functional and Presentation Currency*

These consolidated financial statements are presented in Philippine pesos, the Group's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the consolidated financial statements of the Group are measured using its functional currency. Functional currency is the currency of the primary economic environment in which the Group operates.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The Group's consolidated interim financial statements prepared in accordance with PFRS require management to make judgments and estimates that affect the amounts reported in the consolidated financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied in the Group's last annual consolidated financial statements as of and for the year ended December 31, 2023.

4. SEGMENT REPORTING

4.1 *Business Segments*

The Group's operating businesses are recognized and managed separately according to the nature of services provided (primary segments) and the different markets served (secondary segments) with a segment representing a strategic business unit. The Group's business segments follow:

- (a) *Rentals* – refers to leasing of real estate properties, including land and building and other structures.
- (b) *Construction* – principally refers to general construction business which involves site development, earthworks, structural and civil works, masonry works, architectural finishes, electrical works, plumbing and sanitary works, fire protection works and mechanical works.
- (c) *Sale of Land and Condominium Units* – involve the development and sale of industrial and other parcels of land and residential condominium units.

The Group has not identified any segment based on geographical location (see Note 4.4).

4.2 Segment Assets and Liabilities

Segment assets are allocated based on their physical location and use or direct association with a specific segment and they include all operating assets used by a segment and consist principally of operating cash, receivables, contract asset, land and land development cost, property development costs, property and equipment, and investment properties. Similar to segment assets, segment liabilities are also allocated based on their use or direct association with a specific segment. Segment liabilities include all operating liabilities and consist principally of loans and borrowings, trade and other payables, contract liability and deposits and advances. Segment assets and liabilities do not include deferred taxes.

4.3 Intersegment Transactions

Segment revenues, expenses and performance include sales and purchases between business segments. Such sales and purchases are eliminated in consolidation.

5. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to risk in relation to its operating, investing, and financial activities, and the business environment in which it operates. Generally, the Group's objectives in risk management are to ensure that it identifies, measures, monitors, and controls the various risks that arise from its business activities and that it adheres strictly to the policies, procedures, and control systems which are established to address these risks. In managing financial instruments, the Group is exposed to financial risk such as market risk (including foreign currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), liquidity risk and credit risk.

The condensed consolidated interim financial statements do not include all financial risk management information and disclosures required in the annual consolidated financial statements; hence, they should be read in conjunction with the Group's annual consolidated financial statements as of and for the year ended December 31, 2023.

There have been no significant changes in the risk management structure of the Group or in any risk management policies since the previous annual period.

6. FAIR VALUE MEASUREMENT AND DISCLOSURES

6.1 *Fair Value Hierarchy*

In accordance with PFRS 13, *Fair Value Measurement*, the fair value of financial assets and financial liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS, are categorized into three levels based on the significance of inputs used to measure the fair value. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which an asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For investments which do not have quoted market price, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related credit risk of counterparties or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

6.2 *Financial Instruments Measurement at Fair Value*

The Group's financial assets at fair value through other comprehensive income (FVOCI) include proprietary golf club shares, which are categorized within Level 2 as their prices are not derived from market considered as active due to lack of trading activities among market participants at the end or close to the end of the reporting period. Moreover, equity security held in a private company is included in Level 3 since its market value is not quoted in an active market, hence, measured using the market approach by reference to the fair value of a comparable instrument adjusted for inputs (i.e., financial forecast of cash flows or profit or loss) internally developed by management to consider the differences in corporate profile and historical performance of the entity. As of March 31, 2024 and December 31, 2023, the Group's financial assets measured at FVOCI amounted to P42.5 million (see Note 16).

The Group has no financial liabilities measured at fair value as of March 31, 2024 and December 31, 2023.

There were no transfers between Levels 1, 2 and 3 instruments in both periods.

6.3 Financial Instruments Measured at Amortized Cost for which Fair Value is Disclosed

The tables below summarize the fair value hierarchy of the Group's financial assets and financial liabilities which are not measured at fair value in the condensed consolidated statements of financial position but for which fair value is required to be disclosed.

6.4 Fair Value Disclosures for Investment Properties Carried at Cost

The table below shows the levels within the hierarchy of non-financial assets that are not measured at fair value but for which fair values are disclosed as of March 31, 2024 and December 31, 2023.

The above fair value information is determined on the basis of the appraisals performed by an independent appraiser with appropriate qualifications and recent experience in the valuation of similar properties in the relevant locations. To some extent, the valuation process was conducted by the appraiser in discussion with the Group's management with respect to the determination of the inputs such as the size, age, and condition of the land and buildings, and the comparable prices in the corresponding property location. In estimating the fair value of these properties, management takes into account the market participant's ability to generate economic benefits by using the assets in their highest and best use. Based on management assessment, the best use of the Group's investment properties is their current use.

26. COMMITMENTS AND CONTINGENCIES

The following are the significant commitments and contingencies involving the Group:

26.1 Operating Leases – Group as a Lessor

The Group is a lessor under operating leases covering certain real estate properties presented in the consolidated statements of financial position as Investment Properties. Lease agreements with large tenants have terms ranging from five to 45 years with monthly rental payment on certain rate per square meter of leased area subject to annual escalation rates of 5.00% to 10.00% per annum. Some lease agreements have a term of one year, subject to annual renewal and monthly payment of minimum rental plus additional rental based on certain percentage of the lessee's gross sales.

The future minimum lease collections under these operating leases as of the end of the reporting period is as follows:

	March 31, 2024 (Unaudited)	December 31, 2023 (Audited)
Within one year	P 1,780,049,109	P 1,703,031,469

After one year but not more than four years	1,246,111,037	1,228,009,653
After one year but not more than five years	972,154,469	868,806,446
More than five years	<u>37,212,679,124</u>	<u>37,581,416,621</u>
	<u>P 44,593,815,354</u>	<u>P 44,398,301,699</u>

26.2 Legal Claims

There are pending claims and legal actions filed by the Group or against the Group arising from the normal course of its business. Management believes that the ultimate liability, if any, with respect to such litigations, claims and disputes will not materially affect the financial position and results of operations of the Group.

26.3 Deficiency Tax Assessments

The Group has certain final deficiency tax assessment and has received letters of authority from the BIR, pursuant to which the BIR has sought to investigate certain tax periods of the Group and consequently examine certain books, records and accounts that relate to transactions in the ordinary course of business. There are final deficiency tax assessments in the ordinary course of business against the Parent Company that are pending with the BIR covering taxable years 2013 and 2009. Pursuant to the Group's policy of addressing such actions in line with prudent business practice, the Group has engaged tax counsels and advisors in relation to these matters.

As of December 31, 2023, the final deficiency tax assessments are still under protest. Management believes that the Group has enough legal basis under the law, Supreme Court and Court of Tax Appeals decisions and evidence to support their claim; hence, no provisions were recognized in the consolidated financial statements.

26.4 Reclaimed Land and Others

The Group's existing land holdings in Aseana City, which were obtained pursuant to certain series of agreements involving reclamation and related projects with the Philippine Government, are entirely located on reclaimed foreshore land. Although the Group holds registered titles to these land holdings, Philippine law provides that issuance of titles does not create or vest title, but only constitutes evidence of ownership over such properties.

In view of this, the Group's ownership, registration, and possession of titles and actual possession of these land holdings do not negate the possibility that the Philippine Government or third parties may at any time, file lawsuits to challenge the Group's rights to these land holdings. While the PRA and the Philippine Office of the Government Corporate Counsel (OGCC) are of the opinion that the Group's titles can no longer be invalidated, there is no assurance that the Philippine Government or third parties will not challenge the Group's rights to such reclaimed lands in the future. Notwithstanding the foregoing, the Group is not aware of the validity of the Group's titles being questioned, impugned, challenged or invalidated by the Philippine Government or any other third party since the time the Group acquired ownership over these land holdings in Aseana City and up to the issuance of the Group's consolidated financial statements. In addition to the opinions of the PRA and OGCC, management believes that the Group has enough basis in law and in the decisions of the relevant courts, to support the validity of its titles and ownership over these subject properties.

There are other commitments, litigations and contingencies that arise in the normal course of the Group's operations which are not reflected in the consolidated financial statements. As of March 31, 2024, management is of the opinion that losses, if any, from these commitments and contingencies will not have material effects on the Group's consolidated financial statements.

27. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Group's capital management objectives are to ensure that the Group maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in the light of changes in economic conditions primarily those current and expected future events that affect or likely to affect the real estate and leasing sector. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, pay-off existing debts, return capital to shareholders or issue new shares.

The Group monitors its capital gearing by measuring the ratio of loans and borrowings to total capital and net loans and borrowings to total capital. Loans include all short-term and long-term borrowings while net interest-bearing loans include all short-term and long-term loans net of cash and cash equivalents.

As of March 31, 2024 and December 31, 2023, the Group's ratios of net interest-bearing loans to total capital are as follows:

	March 31, 2024 (Unaudited)	December 31, 2023 (Audited)
