- (b) *Construction* – principally refers to general construction business which involves site development, earthworks, structural and civil works, masonry works, architectural finishes, electrical works, plumbing and sanitary works, fire protection works and mechanical works.
- (c) *Sale of Land and Residential Units* – involve the development and sale of industrial and other parcels of land and residential condominium units.

1.4 Approval of Condensed Consolidated Interim Financial Statements

The condensed consolidated interim financial statements of the Group as of and for the three months ended March 31, 2026 (including the comparatives as of December 31, 2025 and for the three months ended March 31, 2025) were approved and authorized for issue by the Parent Company's Chief Executive Officer (CEO) on May 13, 2026.

2. MATERIAL ACCOUNTING POLICY INFORMATION

2.1 Basis for Preparation of Consolidated Interim Financial Statements

- (a) *Statement of Compliance with Philippine Financial Reporting Standard*

The consolidated financial statements of the Group as of and for the year ended December 31, 2025 were prepared in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards. In 2023 and in prior years, the Group's consolidated financial statements were prepared in accordance with PFRS Accounting Standards as modified by the application of the financial reporting reliefs issued and approved by the SEC in response to the COVID-19 Pandemic [see Note 2.1(b)]. PFRS Accounting Standards are adopted by the Financial and Sustainability Reporting Standards Council (FSRSC) from the pronouncements issued by the International Accounting Standards Board and approved by the Philippine Board of Accountancy.

The consolidated financial statements have been prepared using the measurement bases specified by PFRS Accounting Standards for each type of asset, liability, income and expense. The measurement bases are more fully described in the accounting policies that follow.

(b) *SEC Financial Reporting Reliefs Availed by the Group*

In 2023 and prior years, the Group has availed of several financial reporting reliefs granted by the SEC relating to the number of implementation issues of PFRS 15, *Revenue from Contracts with Customers*, and the related financial reporting interpretations affecting the real estate industry. In 2024, the Group adopted the previously deferred provisions of PFRS 15 and the related issuances of the Philippine Interpretations Committee (PIC), and International Financial Reporting Interpretations Committee (IFRIC) Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23) using modified retrospective approach as allowed by SEC MC No. 08-2021, *Amendment to SEC MC No. 14-2018, MC No. 03-2019, MC No. 04-2020, MC No. 34-2020 to clarify transitory provision*, and PIC Q&A No. 2018-12-E, *Treatment of land in the determination of Percentage of Completion (POC)*

The adoption of these standards and interpretations has resulted in adjustments to the amounts recognized in the consolidated financial statements as at January 1, 2024, with the cumulative effect recognized in equity as an adjustment to the opening balance of retained earnings for the current period.

Discussed below and in the succeeding pages are the relevant information about these standards and interpretations, and the resulting adjustments to the relevant consolidated financial statements accounts as at January 1, 2024.

(i) *IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23) for Real Estate Industry*

The IFRIC concluded that any inventory (work-in-progress) for unsold units under construction that the entity recognizes is not a qualifying asset, as the asset is ready for its intended sale in its current condition (i.e., the developer intends to sell the partially constructed units as soon as it finds suitable customers and, in signing a contract with a customer, will transfer control of any work-in-progress relating to that unit to the customer). Accordingly, no borrowing costs can be capitalized on such unsold real estate inventories.

As a result of the adoption of the IFRIC Agenda Decision, Property development costs decreased by P51.5 million as of January 1, 2024.

(ii) *PIC Q&A No. 2018-12-D, Concept of the Significant Financing Component in the Contract to Sell and PIC Q&A No. 2020-04, Addendum to PIC Q&A 2018-12-D: Significant Financing Component Arising from Mismatch between the Percentage of Completion and Schedule of Payments*

PFRS 15 requires that in determining the transaction price, an entity shall adjust the promised amount of consideration for the effects of the time value of money if the timing of payments agreed to by the parties to the contract (either explicitly or implicitly) provides the customer or the entity with a significant benefit of financing the transfer of goods or services to the customer. In those circumstances, the contract contains a significant financing component.

There is no significant financing component if the difference between the promised consideration and the cash selling price of the good or service arises for reasons other than the provision of finance to either the customer or the entity, and the difference between those amounts is proportional to the reason for the difference. Further, the Group does not need to adjust the promised amount of consideration for the effects of a significant financing component if the entity expects, at contract inception that the timing difference of the receipt of full payment of the contract price and that of the completion of the project, are expected within one year and significant financing component is not expected to be significant.

As a result of the adoption of this interpretation, Contract assets as of January 1, 2024 increased by P42.8 million, Contract liabilities as at the said date increased by P191.3 million, while Deferred tax liability increase by P31.6 million.

(iii) *PIC Q&A No.2018-12-E, Treatment of Land in the POC*

Land on which the real estate development will be constructed shall also be excluded in the assessment of POC.

As a result of the adoption of this interpretation Property development cost increased by P9.0 million and Contract assets, Contract liabilities, Accrued commissions, and Prepaid commissions decreased by P9.3 million, P1.4 million, P9.8 million and P13.5 million, respectively.

The following table shows the summary of the impact of the adoption of IFRIC Agenda (PAS 23), PIC Q&A No. 2018-12D, and PIC Q&A No. 2018-12E on the Group's consolidated retained earnings as at January 1, 2024.

(c) *Presentation of Consolidated Financial Statements*

The consolidated financial statements are presented in accordance with Philippine Accounting Standard (PAS) 1, *Presentation of Financial Statements*. The Group presents a consolidated statement of comprehensive income separate from the consolidated statement of profit or loss.

The Group presents a third consolidated statement of financial position as at the beginning of the preceding period when it applies an accounting policy retrospectively or makes retrospective restatement or reclassification of items that has a material effect on the information in the consolidated statement of financial position at the beginning of the preceding period. The related notes to the third consolidated statement of financial position are not required to be disclosed.

(d) *Functional and Presentation Currency*

These consolidated financial statements are presented in Philippine pesos, the Group's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the consolidated financial statements of the Group are measured using its functional currency. Functional currency is the currency of the primary economic environment in which the Group operates.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The Group's consolidated interim financial statements prepared in accordance with PFRS require management to make judgments and estimates that affect the amounts reported in the consolidated financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied in the Group's last annual consolidated financial statements as of and for the year ended December 31, 2025.

4. SEGMENT REPORTING

4.1 Segment Assets and Liabilities

Segment assets are allocated based on their physical location and use or direct association with a specific segment and they include all operating assets used by a segment and consist principally of operating cash, receivables, contract asset, land and land development cost, property development costs, property and equipment, and investment properties. Similar to segment assets, segment liabilities are also allocated based on their use or direct association with a specific segment. Segment liabilities include all operating liabilities and consist principally of loans and borrowings, trade and other payables, contract liability and deposits and advances. Segment assets and liabilities do not include deferred taxes.

4.2 Intersegment Transactions

Segment revenues, expenses and performance include sales and purchases between business segments. Such sales and purchases are eliminated in consolidation.

4.3 Analysis of Segment Information

Segment information is analyzed as follows for the three months ended March 31, 2026 and 2025 (in thousands):

5. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to risk in relation to its operating, investing, and financial activities, and the business environment in which it operates. Generally, the Group's objectives in risk management are to ensure that it identifies, measures, monitors, and controls the various risks that arise from its business activities and that it adheres strictly to the policies, procedures, and control systems which are established to address these risks. In managing financial instruments, the Group is exposed to financial risk such as market risk (including foreign currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), liquidity risk and credit risk.

The condensed consolidated interim financial statements do not include all financial risk management information and disclosures required in the annual consolidated financial statements; hence, they should be read in conjunction with the Group's annual consolidated financial statements as of and for the year ended December 31, 2025.

There have been no significant changes in the risk management structure of the Group or in any risk management policies since the previous annual period.

6. FAIR VALUE MEASUREMENT AND DISCLOSURES

6.1 *Fair Value Hierarchy*

In accordance with PFRS 13, *Fair Value Measurement*, the fair value of financial assets and financial liabilities and non-financial assets which are measured at fair value on a recurring or non-recurring basis and those assets and liabilities not measured at fair value but for which fair value is disclosed in accordance with other relevant PFRS, are categorized into three levels based on the significance of inputs used to measure the fair value. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which an asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

For purposes of determining the market value at Level 1, a market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For investments which do not have quoted market price, the fair value is determined by using generally acceptable pricing models and valuation techniques or by reference to the current market value of another instrument which is substantially the same after taking into account the related credit risk of counterparties or is calculated based on the expected cash flows of the underlying net asset base of the instrument.

6.2 *Financial Instruments Measurement at Fair Value*

The Group's financial assets at fair value through other comprehensive income (FVOCI) include proprietary golf club shares, which are categorized within Level 2 as their prices are not derived from market considered as active due to lack of trading activities among market participants at the end or close to the end of the reporting period. Moreover, equity security held in a private company is included in Level 3 since its market value is not quoted in an active market, hence, measured using the market approach by reference to the fair value of a comparable instrument adjusted for inputs (i.e., financial forecast of cash flows or profit or loss) internally developed by management to consider the differences in corporate profile and historical performance of the entity. As of March 31, 2026 and December 31, 2025, the Group's financial assets measured at FVOCI amounted to P42.0 million. (see Note 16).

The Group has no financial liabilities measured at fair value as of March 31, 2026 and December 31, 2025.

There were no transfers between Levels 1, 2 and 3 instruments in both periods.

6.3 Financial Instruments Measured at Amortized Cost for which Fair Value is Disclosed

The tables below summarize the fair value hierarchy of the Group's financial assets and financial liabilities which are not measured at fair value in the condensed consolidated statements of financial position but for which fair value is required to be disclosed.

The above fair value information is determined on the basis of the appraisals performed by an independent appraiser with appropriate qualifications and recent experience in the valuation of similar properties in the relevant locations. To some extent, the valuation process was conducted by the appraiser in discussion with the Group's management with respect to the determination of the inputs such as the size, age, and condition of the land and buildings, and the comparable prices in the corresponding property location. In estimating the fair value of these properties, management takes into account the market participant's ability to generate economic benefits by using the assets in their highest and best use. Based on management assessment, the best use of the Group's investment properties is their current use.

26. COMMITMENTS AND CONTINGENCIES

The following are the significant commitments and contingencies involving the Group:

26.1 Operating Leases – Group as a Lessor

The Group is a lessor under operating leases covering certain real estate properties presented in the consolidated statements of financial position as Investment Properties. Lease agreements with large tenants have terms ranging from five to 50 years with monthly rental payment on certain rate per square meter of leased area subject to annual escalation rates of 5.00% to 10.00% per annum. Some lease agreements have a term of one year, subject to annual renewal and monthly payment of minimum rental plus additional rental based on certain percentage of the lessee's gross sales.

The future minimum lease collections under these operating leases as of the end of the reporting period is as follows:

	March 31, 2026	December 31, 2025

After three years but not more than four years	1,348,688,622	1,297,026,301
After four years but not more than five years	1,126,596,462	1,157,451,593
More than five years	<u>41,307,452,142</u>	<u>39,357,956,260</u>
	<u>P49,559,359,666</u>	<u>P 47,028,930,023</u>

26.2 Legal Claims

There are pending claims and legal actions filed by the Group or against the Group arising from the normal course of its business. Management believes that the ultimate liability, if any, with respect to such litigations, claims and disputes will not materially affect the financial position and results of operations of the Group.

26.3 Deficiency Tax Assessments

The Group has certain final deficiency tax assessment and has received letters of authority from the BIR, pursuant to which the BIR has sought to investigate certain tax periods of the Group and consequently examine certain books, records and accounts that relate to transactions in the ordinary course of business. There are final deficiency tax assessments in the ordinary course of business against the Company that are pending with the BIR covering taxable years 2013 and 2009. Pursuant to the Group's policy of addressing such actions in line with prudent business practice, the Group has engaged tax counsels and advisors in relation to these matters.

With respect to the deficiency tax assessment for taxable year 2009, the Court of Tax Appeals (CTA) En Banc rendered a decision favorable to the Parent Company on February 6, 2025, which was affirmed by a Resolution dated November 18, 2025, denying the Commissioner of Internal Revenue's (CIR) motion for reconsideration. The CIR received the Resolution on November 26, 2025, and subsequently filed, on December 5, 2025, a Motion for Extension of Time to file a Petition for Review on Certiorari before the Supreme Court. On January 9, 2026. However, the CIR withdrew its motion and manifestly abandoned further judicial recourse, praying for the termination of the case. The withdrawal effectively resolves the proceedings, subject to the issuance of the appropriate court resolutions and Entry of Judgment, and will result in the final cancellation of the deficiency tax assessment and related penalties for taxable year 2009.

26.4 Reclaimed Land and Others

The Group's existing land holdings in Aseana City, which were obtained pursuant to certain series of agreements involving reclamation and related projects with the Philippine Government, are entirely located on reclaimed foreshore land. Although the Group holds registered titles to these land holdings, Philippine law provides that issuance of titles does not create or vest title, but only constitutes evidence of ownership over such properties.

In view of this, the Group's ownership, registration, and possession of titles and actual possession of these land holdings do not negate the possibility that the Philippine Government or third parties may at any time, file lawsuits to challenge the Group's rights to these land holdings. While the PRA and the Philippine Office of the Government Corporate Counsel (OGCC) are of the opinion that the Group's titles can no longer be invalidated, there is no assurance that the Philippine Government or third parties will not challenge the Group's rights to such reclaimed lands in the future. Notwithstanding the foregoing, the Group is not aware of the validity of the Group's titles being questioned, impugned, challenged or invalidated by the Philippine Government or any other third party since the time the Group acquired ownership over these land holdings in Aseana City and up to the issuance of the Group's consolidated financial statements. In addition to the opinions of the PRA and OGCC, management believes that the Group has enough basis in law and in the decisions of the relevant courts, to support the validity of its titles and ownership over these subject properties.

There are other commitments, litigations and contingencies that arise in the normal course of the Group's operations which are not reflected in the consolidated financial statements. As of March 31, 2026, management is of the opinion that losses, if any, from these commitments and contingencies will not have material effects on the Group's consolidated financial statements.

27. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Group's capital management objectives are to ensure that the Group maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in the light of changes in economic conditions primarily those current and expected future events that affect or likely to affect the real estate and leasing sector. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, pay-off existing debts, return capital to shareholders or issue new shares.

The Group monitors its capital gearing by measuring the ratio of loans and borrowings to total capital and net loans and borrowings to total capital. Loans include all short-term and long-term borrowings while net interest-bearing loans include all short-term and long-term loans net of cash and cash equivalents.

As of March 31, 2026 and December 31, 2025, the Group's ratios of net interest-bearing loans to total capital are as follows:

	March 31, 2026 <u>(Unaudited)</u>	December 31, 2025 <u>(Audited)</u>

Total consolidated revenue decreased by P127.6 million or 11.9%, from P1,073.1 million for the three months ended March 31, 2025 to P945.5 million for the same period in 2026, primarily due to the following:

Sale of Residential Units

The revenue from sale of residential units decreased by P52.8 million or 31.5%, from P167.3 million for the three months ended March 31, 2025 to P114.5 million during the same period in 2026. This decrease was primarily attributable to the decrease in incremental percentage of completion for Midpark in 2026 compared to the incremental percentage of completion for the same period in 2025. Also, lower number of units of midpark was qualified for revenue recognition as it reaches the revenue threshold.

Rentals

The total rental revenue decreased by P76.7 million or 8.5%, from P899.5 million for the three months ended March 31, 2025 to P822.8 million for the same period in 2026. The decrease is due to the pre-termination of some tenants.

Operating expenses – net decreased by P10.8 million or 10.0% from P110.0 million for the period ended March 31, 2025 to P99.1 million for the same period in 2026 primarily from the increase in other operating income attributable to the recognition of gain from permanent improvements from lease pre-termination.

Tax Expense

Tax expense increased by P5.2 million or 4.5%, from P116.4 million in 2025 to P121.6 million in 2026 significantly due to the timing differences in revenue recognition for income tax purposes, particularly from Midpark sales, which reached the revenue threshold.
